IT Fleur de sel Khoisan di Amanprana è unico. Prima di arrivare nelle saline Khoisan l'acqua dell'oceano è filtrata naturalmente da una barriera sottomarina di conchiglie, sabbia di quarzo e calcare lunga 2 000 m. I bellissimi cristalli di sale affiorano in superficie solo al soffiare di una brezza leggera sotto il caldo sole africano. Questo rarissimo sale dal sapore delicato è raccolto a mano. Commercio equo e solidale. Ingredienti: sale marino (Khoisan fleur de sel) 100%.
